

EXPERIMENT 1

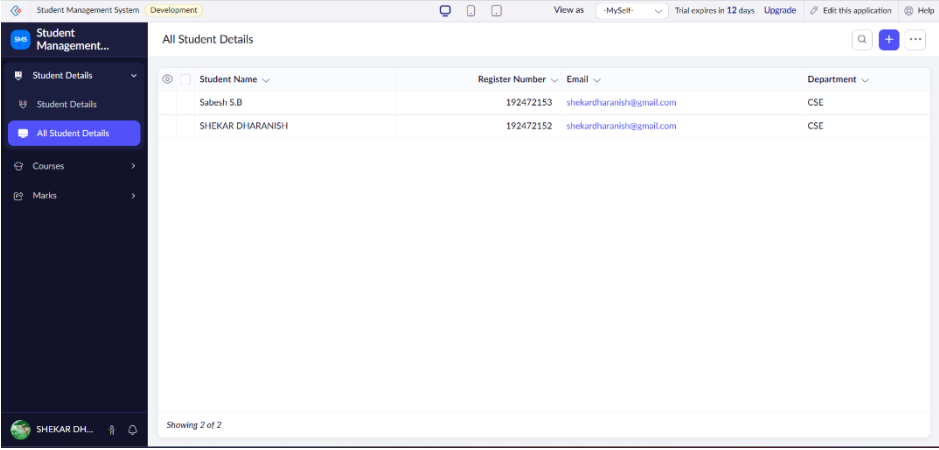

Student Management System

Aim: To create a cloud-based Student Management System using Zoho Creator and demonstrate Software as a Service (SaaS).

Procedure:

1. Login to Zoho Creator and create a new application.
2. Select Core System → Start from Scratch.
3. Create a Student Form.
4. Add fields:
 - Student Name
 - Roll Number
 - Email
 - Course (Dropdown: CSE, ECE, IT, MECH)
 - Marks
5. Configure field properties:
 - Make important fields mandatory
 - Set Roll Number as unique
6. Save the form by clicking Done.
7. Access the application and enter sample student data.

Output:

The screenshot displays the Zoho Creator interface for a 'Student Management System' in 'Development' mode. The left sidebar shows a navigation menu with 'Student Management...', 'Student Details', 'All Student Details' (highlighted), 'Courses', and 'Marks'. The main area, titled 'All Student Details', contains a table with columns for 'Student Name', 'Register Number', 'Email', and 'Department'. Two student records are listed. The bottom status bar shows 'Showing 2 of 2'.

Student Name	Register Number	Email	Department
Sabesh S.B	192472153	shekardharanish@gmail.com	CSE
SHEKAR DHARANISH	192472152	shekardharanish@gmail.com	CSE

Result: A cloud-based Student Management System was successfully created using Zoho Creator.
